Digital Transformation Centres   ITU

WHERE?

DICT is part of a global network of institutions (the Digital Transformation Centres, or DTCs) to accelerate the uptake of digital technologies among citizens and boost the capacity of young entrepreneurs and SMEs to succeed in the digital economy.

This is done through digital skills courses offered by the Cisco Networking Academy.

Enroll here!

WHAT?

Safer Internet Day (SID) aims to promote greater safety as well as awareness about safe ways to use internet, where everyone is empowered to use technology responsibly, respectfully, critically and creatively.

A key way to do so is to increase access to digital skills, specifically for cybersecurity.

"Safety First!!!" This is what we say to our children and people we care about. BUT we might forget that Safety First also applies to the digital world.

Make the "Safer Internet Day" the beginning of your journey to gain powerful skills to be safe on the Internet and understand more about
